Grant Thornton is one of the world's leading organisations of independent assurance, tax and advisory firms. With more than 53,000 GT people across over 135 countries, they are focused on making a difference to clients, colleagues and the communities in which they live and work.

## About Finance & Accounting Domain

The financial services sector is one of the crucial components of a country's economy. It drives the economy and its marketplace with the free flow of capital and liquidity. It is made up of various financial firms, including banks, insurance companies, investment houses, finance companies, lenders, accounting services, and real estate brokers. Those with a certification in Finance & Accounting can look forward to a lucrative career path within the financial services industry.

## Why do the Finance & Accounting Program with RISE?

Organisations are expanding into new markets that will eventually evolve, and they will seek professionals with functional financial transformation expertise.

RISE, in collaboration with Grant Thornton, prepares you with finance & accounting skills that can enable you to:

Implement creative & transformative solutions to address finance-related complexities

Operate finance functions in a digitally powered environment

Help maximise the efficiency and effectiveness of finance functions

Support the organisation to expand their footprints in the new markets

Deliver business value to the financial services industry
